

Mycroforest Feedback 19 June 2024

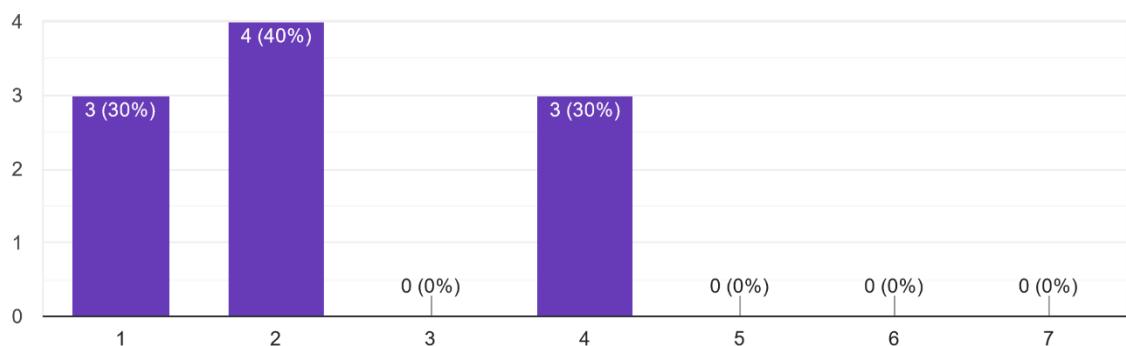

1. Overall, I am satisfied with how easy it is to use this system.

10 responses

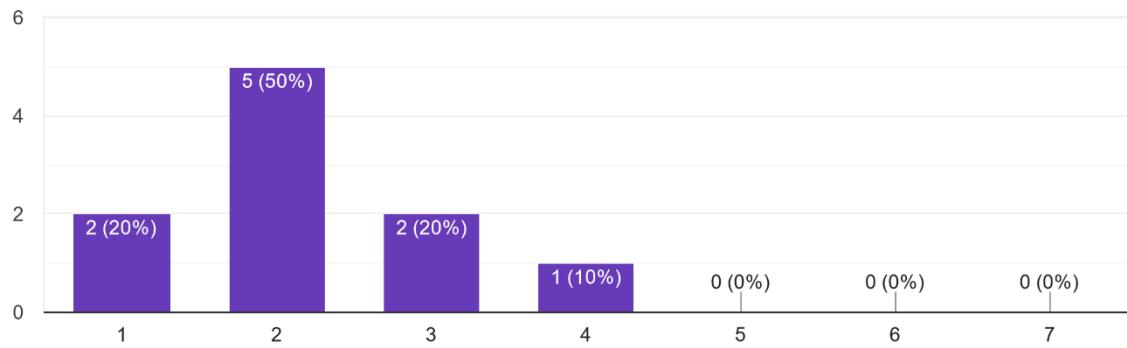

2. It was simple to use this system.

10 responses

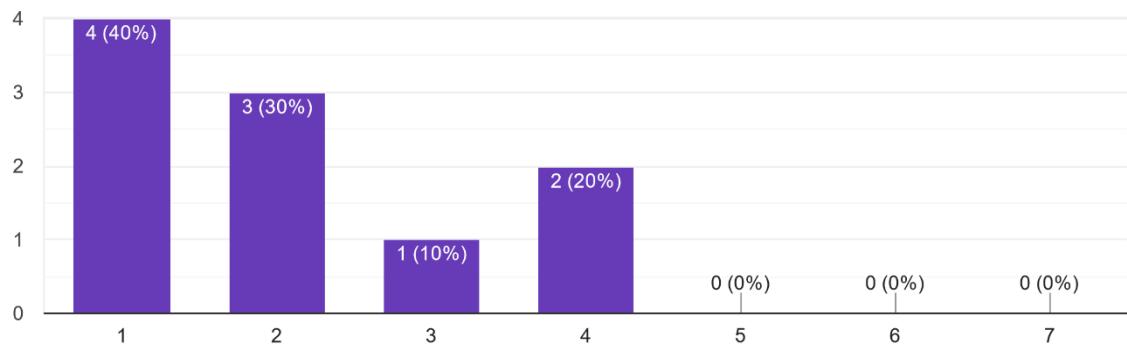

3. I was able to complete the tasks and scenarios quickly using this system.

10 responses

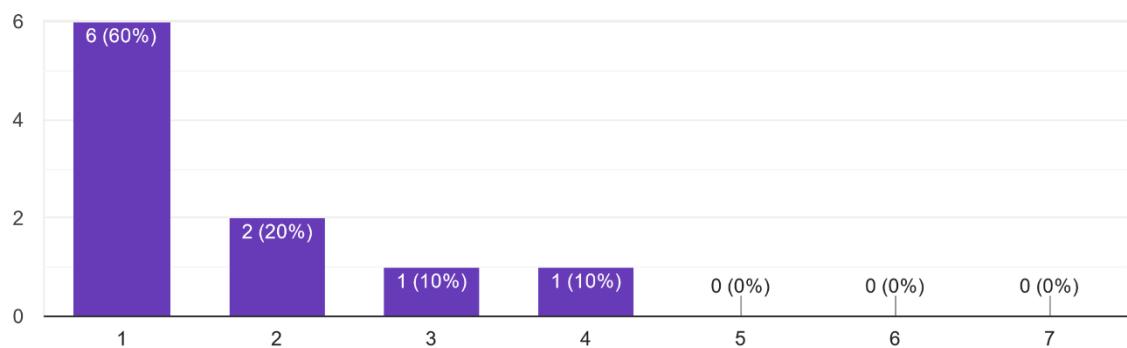

4. I felt comfortable using this system.

10 responses

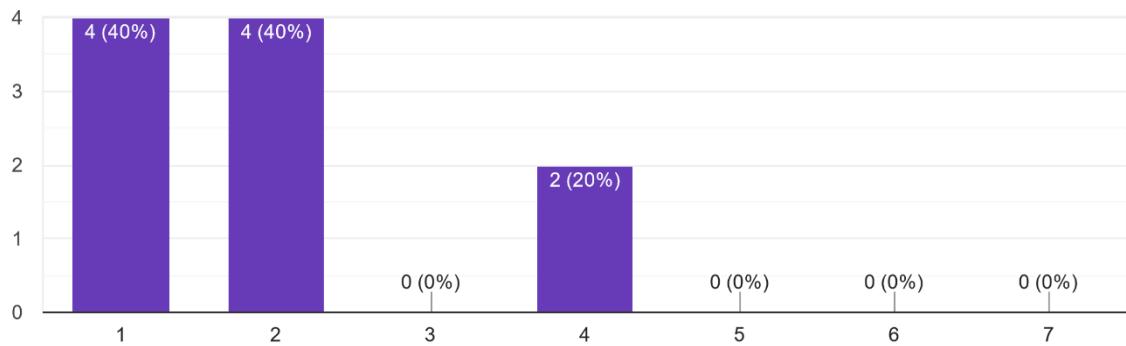

5. It was easy to learn to use this system.

10 responses

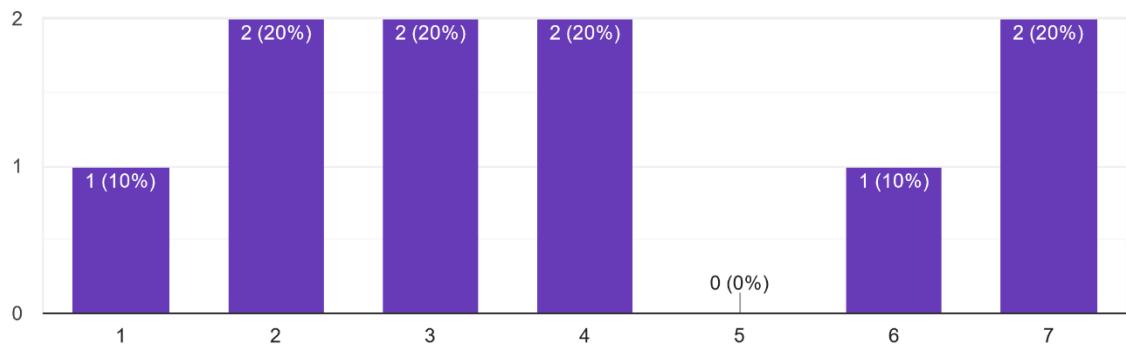

6. I believe I could become productive quickly using this system

10 responses

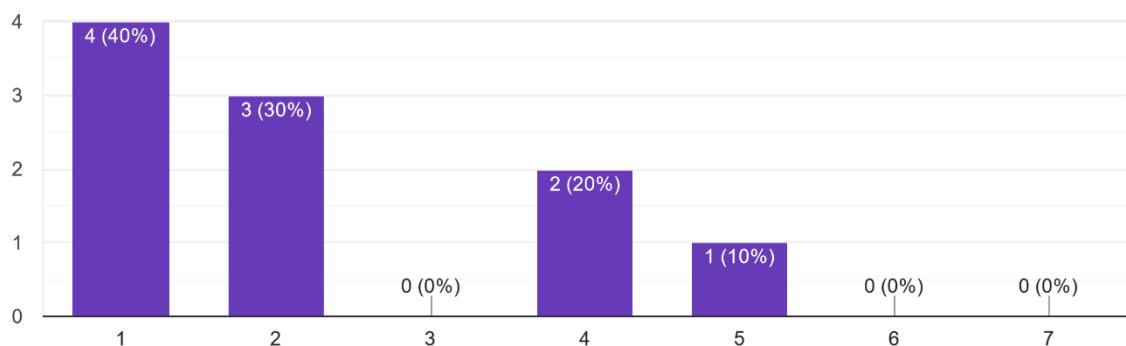

7. The system gave error messages that clearly told me how to fix problems.

10 responses

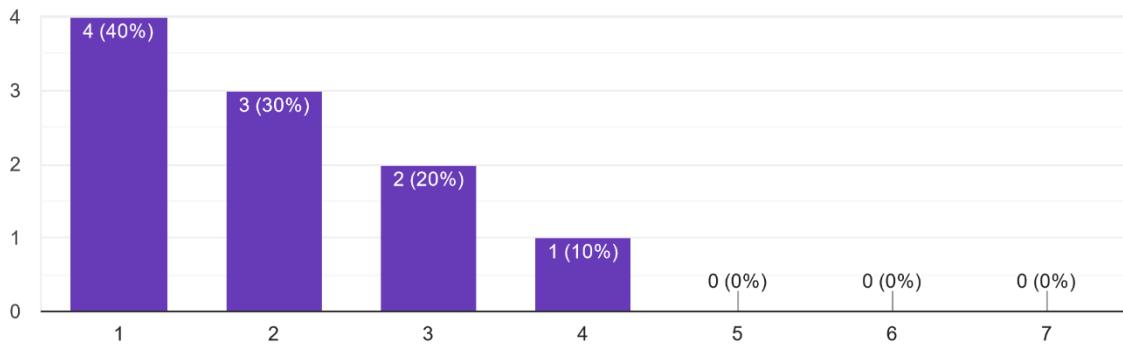

8. Whenever I made a mistake using the system, I could recover easily and quickly.

10 responses

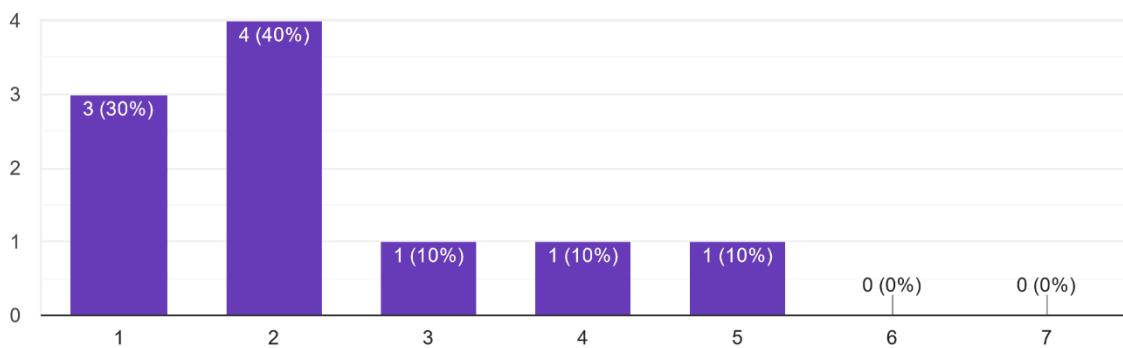

9. The information (such as online help, on-screen messages, and other documentation) provided with this system was clear.

10 responses

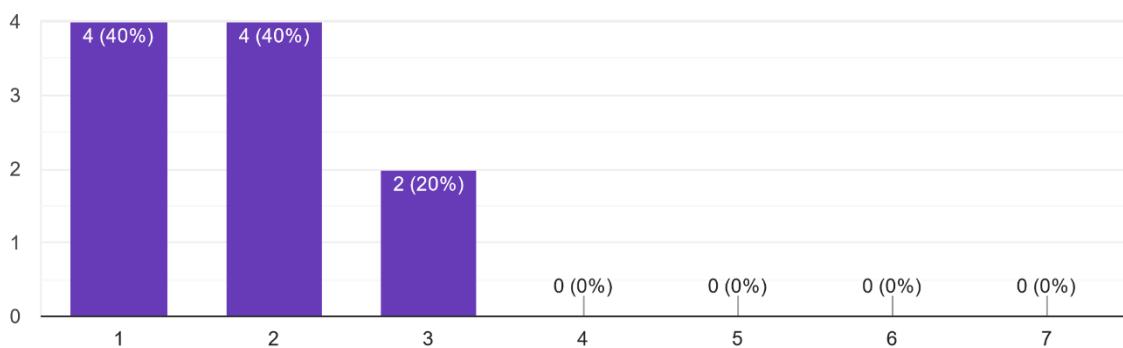

10. It was easy to find the information I needed.

10 responses

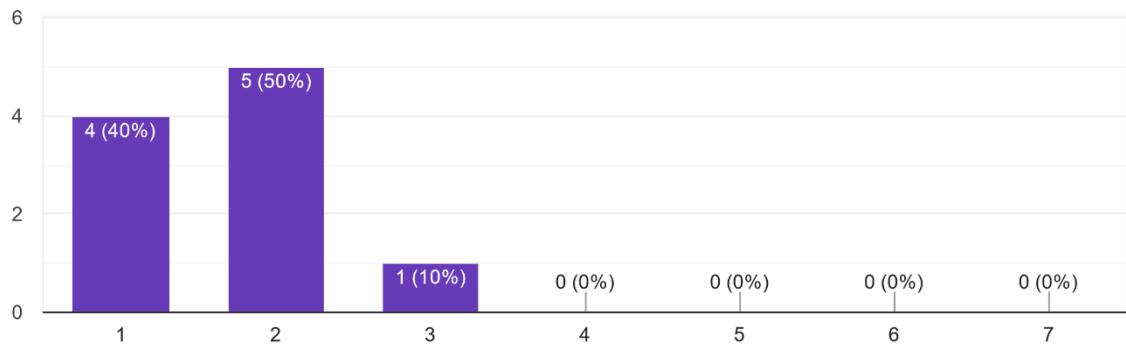

11. The information was effective in helping me complete the tasks and scenarios.

10 responses

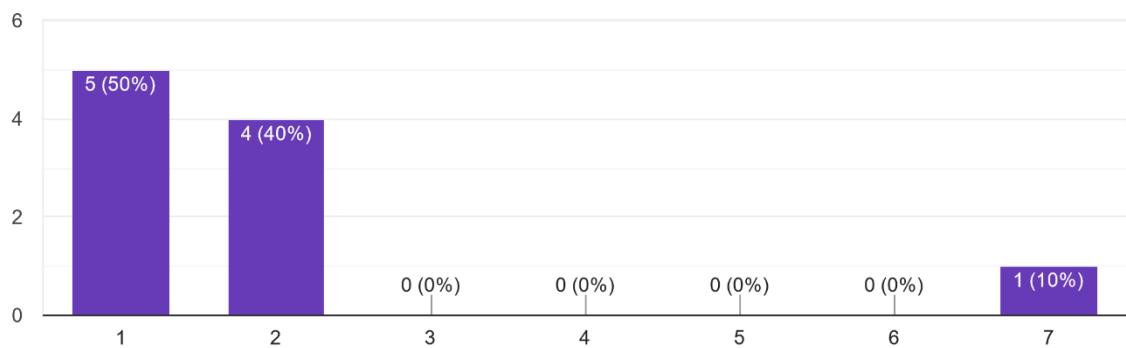

12. The organization of information on the system screens was clear.

10 responses

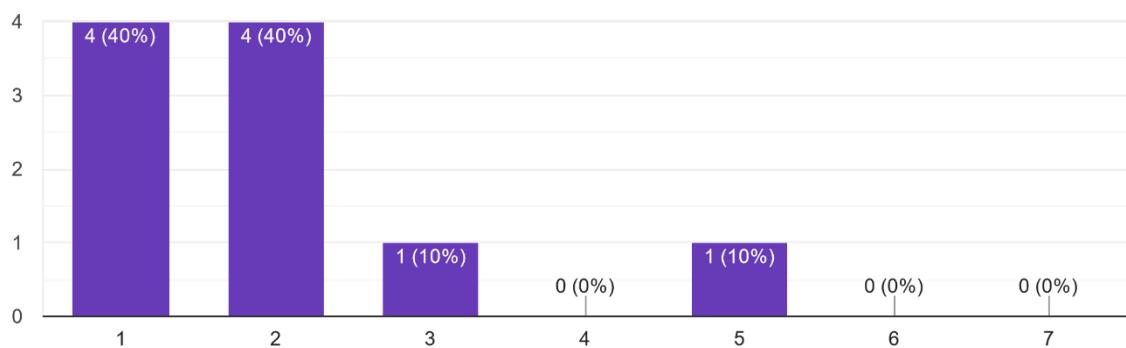

13. The interface of this system was pleasant.

10 responses

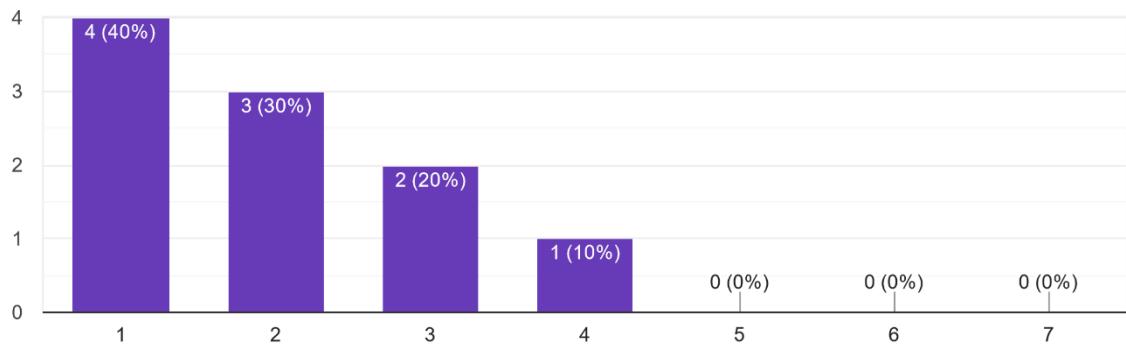

14. I liked using the interface of this system.

10 responses

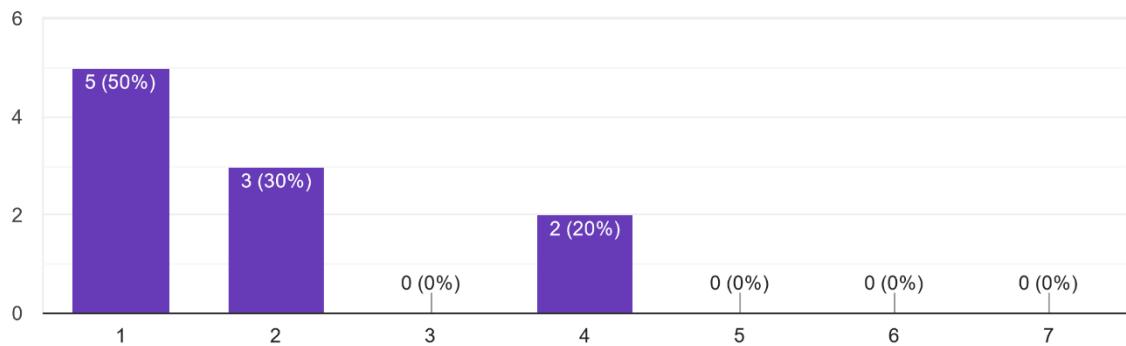

15. This system has all the functions and capabilities I expect it to have.

10 responses

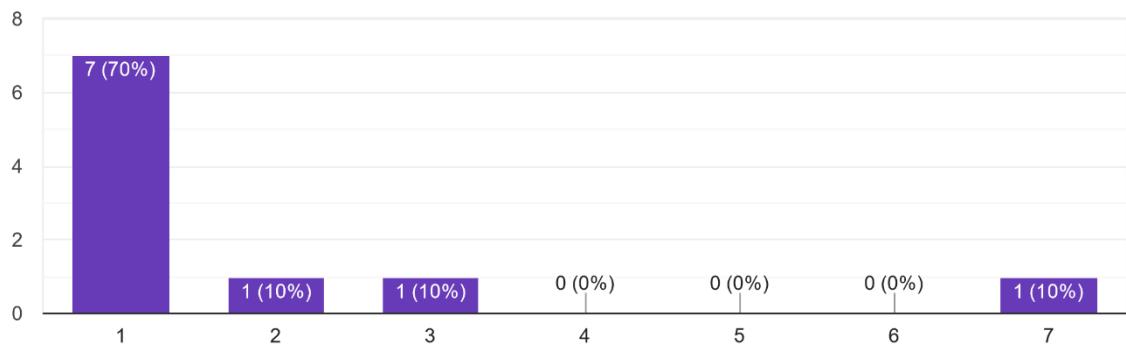

16. Overall, I am satisfied with this system.

10 responses

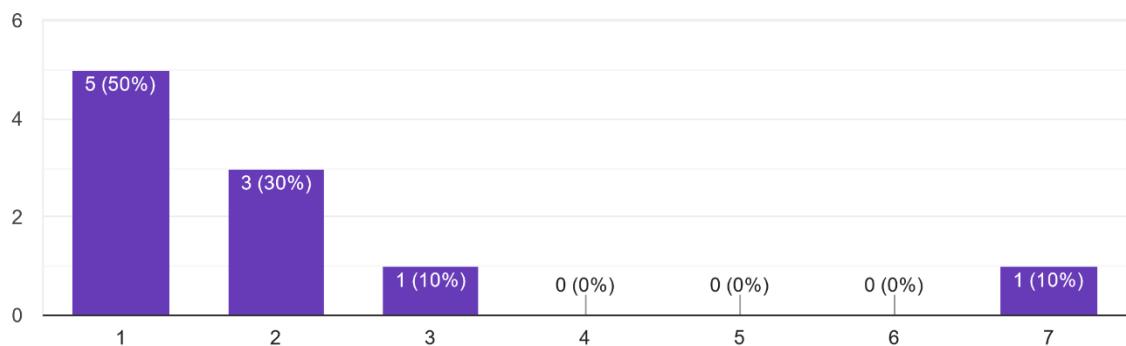

17. This system made me think about responsible forest management and the important role that forests play in keeping atmospheric CO₂ levels in check.

10 responses

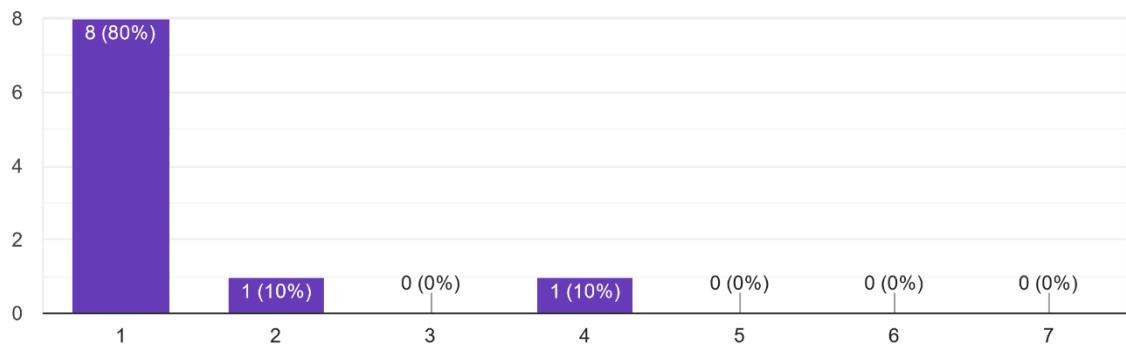

18. I feel like I learned something valuable using this system.

10 responses

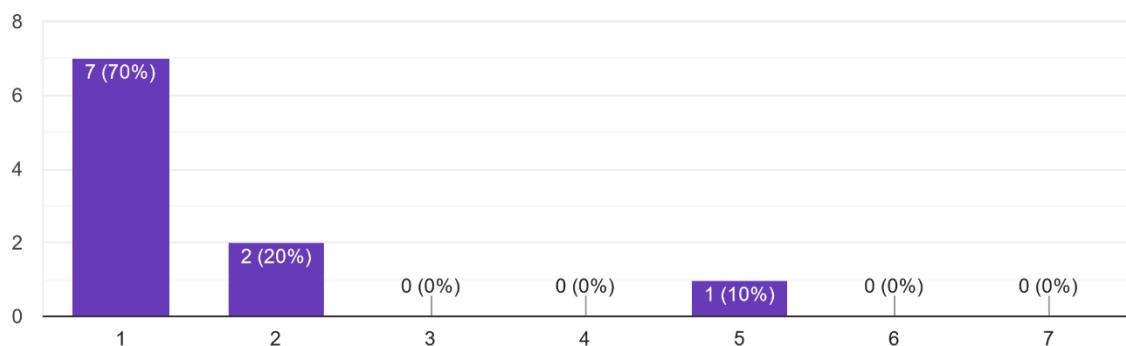

19. Tools like Mycroforest makes learning engaging.

10 responses

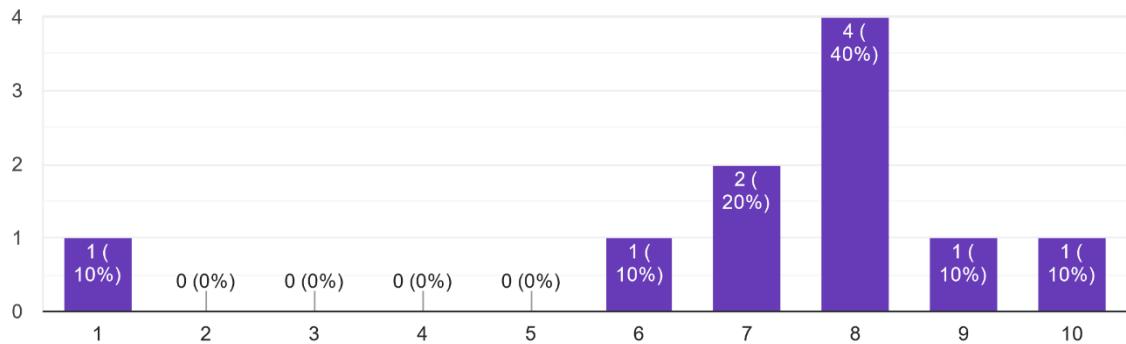

20. I think a lesson using this tool will be a valuable use of time at school.

10 responses

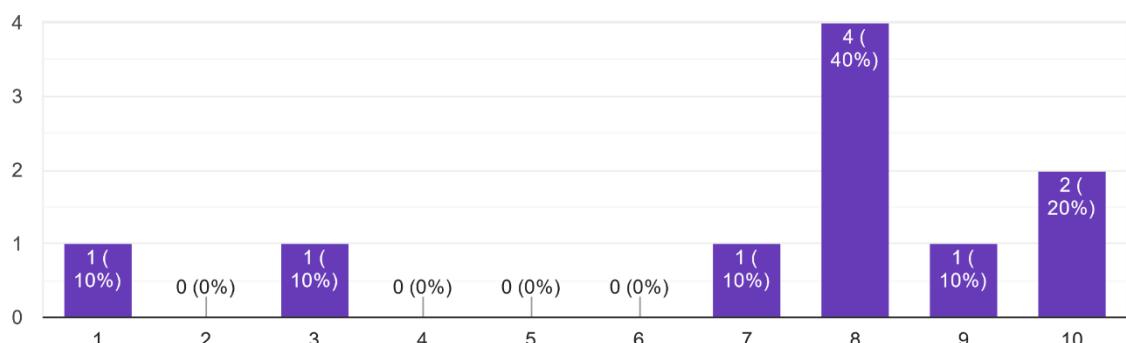

25. On a scale of 1 to 10, how concerned were you about climate change before this learning activity.

10 responses

26. On a scale of 1 to 10, how concerned are you about climate change after this learning activity.

10 responses

21. What did you like best about this tool?

- It was fun.
- Simple and quick.
- Tree.
- Deforestation.
- How easy it was to use.
- The simplicity.
- How clearly it showed us how forestry affects CO2 emissions.
- It was good, very useful.
- It was easy to use and very informative.
- The idea of how forestry model worked.

22. How do you think this tool can be improved to further enhance your learning or user experience?

- Nothing.
- Different scenarios.
- More tree.
- Idk.
- Manage money.
- Add timing for the trees being planted etc.
- No error messages came up.
- I do not know.
- Make it more clear how the years and rotation period work.
- The information page is hard to find.

23. If you come into possession of a forest, what will you do?

- Balance CO2 with money.
- Manage it accordingly.
- Not deforestation.
- Chop it down and make some money then buy a yacht.
- Manage the forest.
- Research for a good plan to keep co2 low enough and make money at the same time.
- Manage the CO2 emissions.
- Try to find the perfect middle ground and think about our world.
- Plan and manage it to make money while keeping C02 levels low.
- Think about my life decisions.

24. Please state your one key takeaway from this experience.

- Lower CO2 more air in the atmosphere.
- the effect trees have.
- Trees.
- 🌱
- Climate change.
- Comp science can mix with forestry.
- The most sustainable way to manage a forest doesn't necessarily affect profits.
- That it is important to manage forestry beforehand in order to do what's best for the environment.
- Forests are important.
